
Chordwise regions

Forward: $\xi < 0.4$

Intermediate: $0.4 \leq \xi < 0.7$

Aft: $\xi \geq 0.7$

Hinge: $\xi = 0.7$

Spanwise thirds: $\eta = 1/3,\ 2/3$ (dashed)

Pressure sections: $\eta = 0.2,\ 0.5,\ 0.8$ (dotted)

Both upper and lower sides enter integrated loads.

Control rotation is undone to define ξ; $\eta = s/b$.
